

SAMPLE HTML TASK

Rose, Lily and Violet own a business called Flora. This business provides flowers and pot-plants for various businesses in the Rosebank area near Cape Town. The owner has been trying to draw up a document that can be used on their website. This text must be adapted and formatted for use on the website by using appropriate HTML tags.

Enter the following text in a text file, then follow the instructions with regard to HTML tags provided on p. 2:

1

FLORA

2

3

14 Flower Street, Rosebank
Telephone 021 829 6108
www.floraflowers.co.za

4

We supply floral arrangements for homes and offices, e.g. estate agents, hairdressers, consulting rooms, etc.

5

Our arrangements include flowers in season, e.g.

Agapanthus
Chrysanthemums
Daffodils
Gladioli
Inca Lilies
Orchids
Roses
Strelitzias

6

We also supply and maintain potplants.

SAMPLE HTML TASK

Save the file as an HTML file and format as follows (refer to the numbers on the graphic):

1. Change the font for all the text to Comic Sans MS.
2. Change the font colour of the heading [Flora] to blue, use Heading 1 level (centre).
3. The font size for the body text must be 4.
4. Centre these items in three lines.
5. Insert a link to any suitable graphic, size approximately 100 x 150 (see example). Supply alternative text.
6. **Grade 11:** Add bullets to the list of flowers.
Grade 12: Arrange in a two-column table (centre table and data).
Table border = 1; Cell padding = 3; Width: 400 pixels.
7. This line bold.
8. Use Heading 2 level for this text, centre, red.
9. Add a link from the word [Contact] to the telephone number at the top of the page.
10. Save the file (supply a suitable name). Check the layout by opening the file in a browser, e.g. Internet Explorer or Google Chrome.
